Dear Customer:

It is with pleasure as well as pride that SELECT NURSERIES, INC., presents to you this, their latest and greatly improved, catalog. Because of a more rapid turnover of plant material, our catalog will now be issued twice yearly, in January and July.

SELECT NURSERIES, INC., is now entering a new year of serving its fast growing clientele with California's finest container grown nursery stock. Its rapid growth in recent years is unquestionably unparalleled in the history of western horticulture. With the recent acquisition of an additional 55 acres practically next door, SELECT now can say that it has well over 130 acres exclusively devoted to container ornamentals. A complete overhauling and modernization of every department has resulted in a more efficient and well organized institution able to keep up with the times of an ever growing industry. Our propagation department is producing well over three million liners this year, with a million liners available to the trade. Our shipping department keeps four semi trucks, two diesels and two gasoline driven trucks and trailers on the highways at all times, plus four large trucks for local deliveries. Our all-important growing department is in the capable hands of experts who have at their fingertips the latest scientific know-how, facilities and equipment to produce California's finest grown nursery stock for our local need as well as for our ever mounting out-of-state business.

Remember, too, that you are always welcome at SELECT NURSERIES whether it be for a friendly visit or to select your future orders. If we can ease your traveling problems, all you need do is to let us know how we can help you.

F. L. "Tommy" Tomlinson.

FUMIGATION

We maintain a modern Fumigatorium, approved by the State Agricultural Commission, for the convenience of those states whose laws require fumigation of incoming plant shipments. This operation is supervised by local horticultural inspectors. However, Select Nurseries, Inc., cannot assume responsibility for any damage or loss due to fumigation.

This service is rendered at our cost which is as follows:

2 1/4" pots.....	2¢	5 gal.....	25¢

SHIPPING

All shipments are made by semi-truck. A full load will consist of approximately 4,000 1-gallon containers or 650 5-gallon or a combination of both. A combination or split load consists of several orders each consigned to different purchasers.

When ordering a truckload beyond our free delivery area, packing, loading and bracing are free.

PACKING

There is no charge made on packing lining-out stock (2 1/4", 2 1/2" RP and 3" pot-sized plants). Each order is securely packed in sturdy, lightweight cartons. Please remember that shipping the larger plants (1 and 5 gallon sizes) by express or public motor freight is very expensive. Not only are the transportation rates high, but it is necessary that nursery stock be packed, which means a packing charge as follows:

1 gal. cans.....	35¢	Labor and materials for	
2 gal. cans.....	50¢	stacking flats.....	35¢
5 gal. cans.....	\$1.00	Flat cost.....	30¢

LINERS

We are one of the largest contract growers of liners in California. With our ultra-modern propagating facilities, where we are on a disease-free program, our cuttings receive the "little extras" that add up to stronger rooted liners. We will be more than happy to go over your future liner lists, at your convenience, and quote prices that we feel will be to your liking.
